

Manoj Sridhar

AI CREATIVE TECHNOLOGIST

GENERATIVE AI DESIGNER

Hybrid Creative Technologist with **7+ years of experience** blending design, engineering thinking, and generative AI. Specialized in building scalable AI-powered visual systems using image, video, and prompt-based workflows – delivering measurable impact across Adobe, FinTech, Automotive, and EdTech domains.

Location

Bangalore, India · Remote
Worldwide

Specialization

Image · Video · Creative
Automation · AI Content Systems

Portfolio

[Vibe Coding Portfolio](#) · [Abstract Art](#)

I design AI-powered creative systems that combine art, technology, and automation to help brands scale visual content and storytelling for the future.

Core Skills & Expertise

A versatile toolkit spanning generative AI, design tooling, and creative engineering – built to bridge the gap between artistic vision and technical execution.

Generative AI

- Stable Diffusion & ComfyUI
- Adobe Firefly (Certified)
- Prompt Engineering Systems
- Custom Model Training

Design & UI/UX

- Photoshop, Illustrator, Figma
- Procreate & Motion Concepts
- Wireframing & Prototyping
- Design Systems

AI Workflows

- Image & Video Pipelines
- API-Integrated Creative Systems
- Rapid Prototyping
- Vercel & Cursor AI

Content Systems

- AI Video Creation
- Visual Storytelling
- Brand & Marketing Assets
- 2D/3D Illustration

Certifications

Adobe Express Certified Professional
2024

Adobe Firefly Custom Models & Services
Foundation
2025

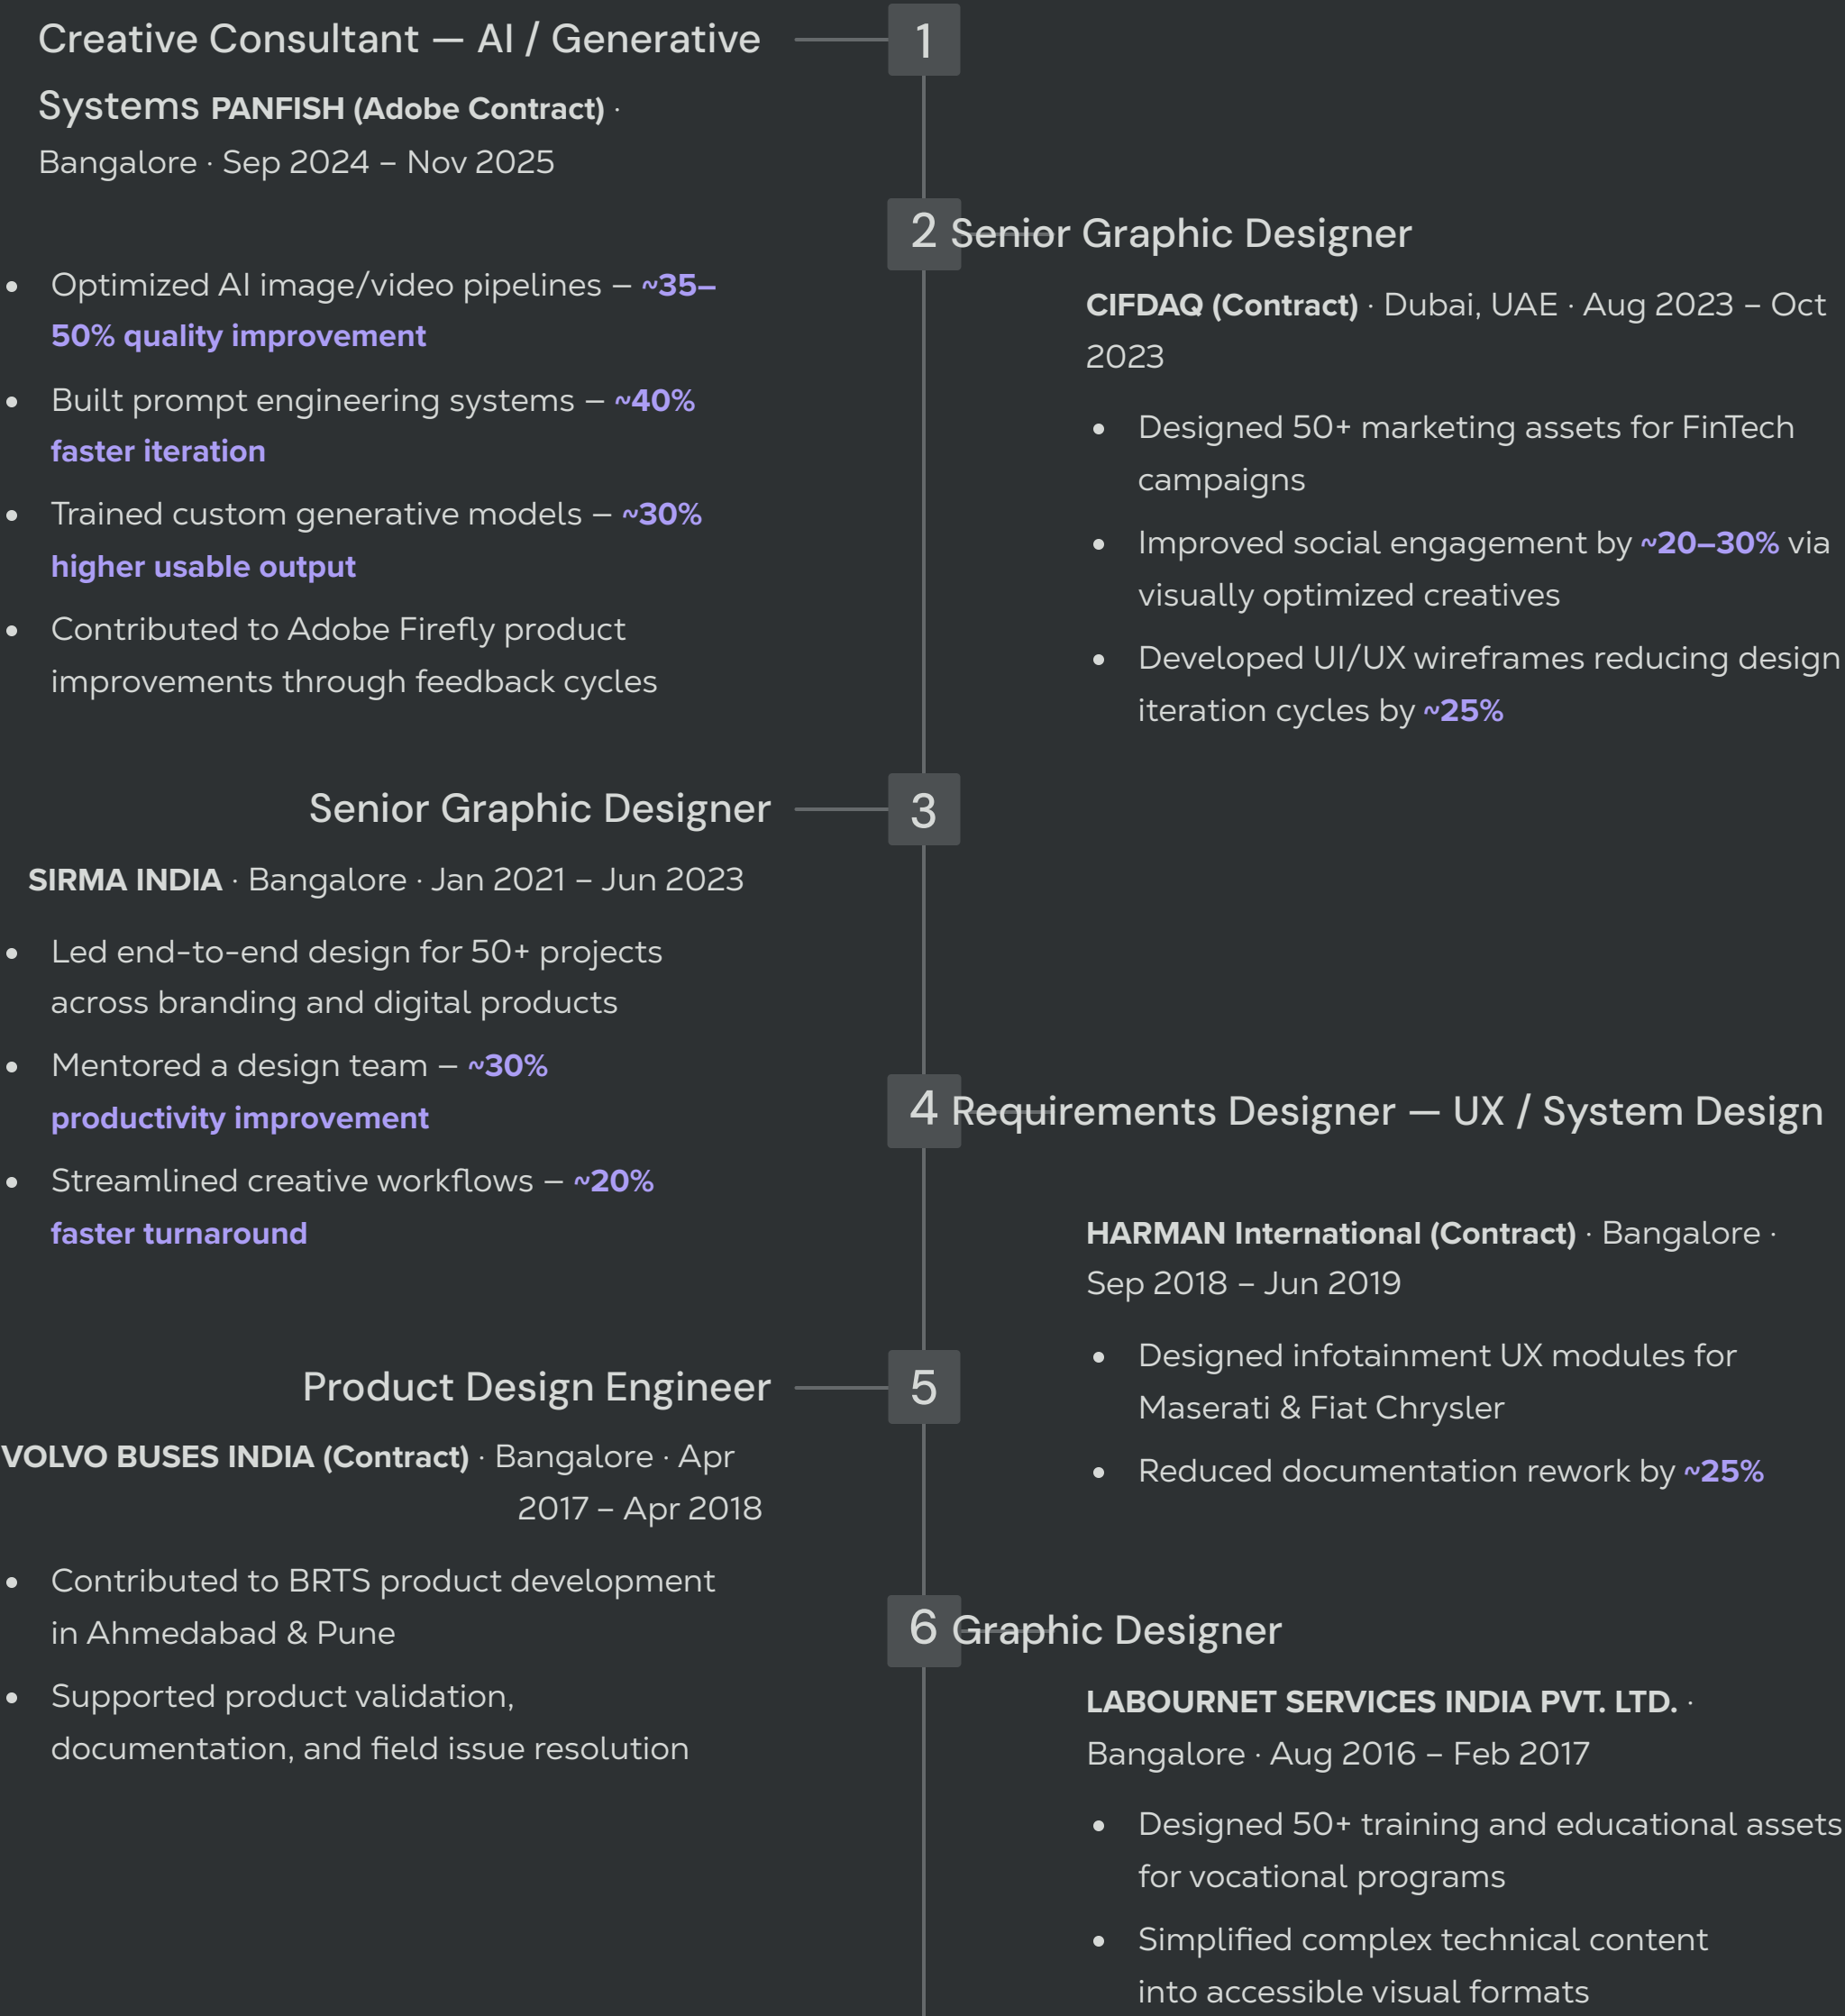

Generative AI for Creative
2023

Building Generative AI Skills for Developers
2024

Professional Experience

A track record of delivering measurable creative and technical outcomes across AI, design, automotive, and FinTech – from Adobe contract work to product engineering at global brands.

AI Projects & Personal Brand

- Generative Visual Systems

Built AI image pipelines using Stable Diffusion, ComfyUI, and Adobe Firefly for scalable art production.
- AI Video + Music Pipelines

Created psychedelic and mantra-based audiovisual content combining AI video generation with original music.
- Vibe Coding Prototypes

Developed rapid web prototypes using Vercel and Cursor AI, exploring the frontier of no-code AI development.
